

Income Disclosure Statement:

Income Disclosure Statement

The BMOR Global, LLC (“BMÔR”), a Nevada corporation, BMÔR Rewarded Compensation Plan compensates you for selling products and services as well as for sponsoring other participants who do the same. Although the opportunity is unlimited, individual results will vary depending on many factors such as the commitment levels and sales ability of each participant. Many factors influence income and some of these factors are outside the control of the Brand Partner.

With BMÔR’s limited operating history, the company lacks statistically significant data to prepare reliable income disclosures. Based on industry standards and company projections, the average annual gross income for our Brand Partners is projected to be anywhere between \$500 and \$2,000. There will certainly be participants who will earn less while others will earn much more. These numbers reflect estimates prepared by the Company pending a more detailed survey to be conducted after sufficient operating data is generated.

If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the BMÔR Rewarded Compensation Plan. Income projections should be considered hypothetical and not be considered as guarantees or projections of your actual earnings or profits. The Company makes no guarantees or promises of any income.

Success with BMÔR results only from hard work, dedication, and leadership.
